

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. **(Original)** A display for a computer system comprising a display screen and a support for supporting the display screen,
the support comprising a base and a column attached to the base,
the column being provided with a screen support part and with at least one connector to which a module of the computer system may be connected.
2. **(Original)** A display according to claim 1 wherein the connector is located such that when a module is connected thereto, the module is located at least partly behind the display screen.
3. **(Currently Amended)** A display according to ~~claims 1 or claim 2~~ claim 1 wherein the column comprises opposed side faces and wherein a plurality of connectors are located on each opposed side face.
4. **(Currently Amended)** A display according to ~~any one of the preceding claims~~ claim 1 wherein ~~the~~ at least one connectors ~~are~~ is connected to an output connection for communication with a processor unit of the computer system.
5. **(Currently Amended)** A display according to ~~any one of claims 1 to 4~~ claim 1 wherein a processor unit is provided in the support.
6. **(Currently Amended)** A display according to ~~any one of the preceding claims~~ claim 1 wherein a power supply unit is provided in the support.
7. **(Currently Amended)** A display according to ~~any one of claims 1 to 5~~ claim 1 wherein a power supply unit is located in a base module adjacent the column and behind the base.

8. **(Currently Amended)** A display according to ~~any one of the preceding claims~~ claim 1 wherein the base comprises a pair of rearwardly extending arms interconnected by a forward part, and wherein the column is connected to the forward part.
9. **(Currently Amended)** A display according to claim 8 ~~where dependant upon claim 7~~ wherein the power supply module is adapted to be received in between the rearwardly extending arms.
10. **(Original)** A display according to claim 9 wherein the power supply module is adapted to supply power to the display screen and any modules connected to the support.
11. **(Currently Amended)** A display according to ~~any one of the preceding claims~~ claim 1 wherein the column is foldably connected to the base.
12. **(Original)** A display according to claim 11 wherein the screen support part comprises a first rotating part located adjacent the column and a second pivotal connection in the vicinity of the screen whereby the support and display screen support part may be folded into a collapsed configuration.
13. **(Currently Amended)** A display according to ~~any one of the preceding claims 1 to 11~~ claim 1 wherein the column is provided with a screen support part comprising a sliding connection whereby the display screen is vertically slideable relative to the column.
14. **(Currently Amended)** A display according to ~~any one of the preceding claims~~ claim 1 further comprising at least one module engaged with a connector on the support.
15. **(Currently Amended)** A computer system comprising a display according to ~~any one of claims 1 to 14~~ claim 1.
